Btw a horrible story I usually wouldn't spread, but it was also a testimonial on Mystery's old website so I assume he's fine with it.

Dude used to make out with girls with GAPING cold sores on his lips, and despite being clearly aware of it the girls didn't give two shits.

This was one of many experiences that opened my eyes as far as guys being delusional about how much their "bad looks" are blocking them, and how slutty most girls are.

They basically have the attention span of an ant, are highly manipulable, and respond to emotional stimulus and the need for validation.

Of course that's all humans, but it's massive as far as pick up.

You're way overestimating their intelligence and selectivity when it comes to sex.
